SUBJECT INDEX

Agranulocytosis
induced by antithyroid drugs (Bilezikian et al.), 124
Alcoholics
altered dietary protein intake in, and pancreatic function changes (Mezey and Potter), 7
Angiography
indocyanine green choroidal, simultaneous with fluorescein retinal (Flower and Hochheimer), 33
Antibodies
allogeneic antileukocyte, induced by multiple transfusions (Bilezikian et al.), 73
to human leukocytes, detection during phagocytosis (Laleli et al.), 43
Antithyroid drugs
inducing agranulocytosis (Bilezikian et al.), 124
Atresia
bronchial, with mucocele and focal pulmonary hyperinflation (Sang Oh et al.), 48

Beta cell tumor culture
human pancreatic, insulin release by (Fujimoto and Teague), 1
Bliss, Eleanor A.
vignette (Harvey, A. McG.), 54
Bone lengthening
by continuous transphyseal traction (Fishbane and Riley), 79
Book Reviews

Perinatal Addiction, 66
Review of Medical Physiology, 7th Edition, 298
Sequential Medical Trials, 138
Textbooks of Medicine, 14th Edition, 67
Breast cancer
and Klinefelter syndrome, clinical conference, 102
Bromide intoxication
a review (Trump and Hochberg), 119

Chemotherapy
at Johns Hopkins, vignette (Harvey, A. McG.), 54
Clincial Conferences at Johns Hopkins
clinical-pathological conferences, 24, 146

Klinefelter syndrome and breast cancer, 102
multiple sclerosis, 229
procainamide-induced lupus, 289
tetany with secondary hemochromatosis, 61
Craib, W. H.
historical note (Pruitt, R. D.), 279
Cushing, Harvey Williams
vignette (Harvey, a. McG.), 196

Duodenum
in Whipple's disease, endoscopic appearance (Volpicelli et al.), 19
Dysuria
in women (Dans and Klaus), 13

Editorial

Endoscopy
of duodenum, in Whipple's disease (Volpicelli et al.), 19
Enzyme variants
in human populations (Harris H.), 245
Evolution
human, circumstances of Neel, J. V.), 233
molecular, and population genetics (Kimuran M.), 253
of protein, in related species (Ayala, F. J.), 262

Fluorescein
in angiography, comparison with indocyanine green (Flower and Hochheimer), 33
Forearm
at rest, free fatty acid metabolism in (Tancredi et al.), 167
Free fatty acid metabolism
in resting forearm (Tancredi et al.), 167

Glucose
in human pancreatic beta cell tumor culture, effect on insulin release (Fujimoto and Teague), 1
oxidation by lymphocytes, effects of mitogens (Tsan et al.), 113

Heart disease
ischemic, problem of (Ross, R. S.), 217
Hemochromatosis
with tetany, clinical conference, 61
Hypothyroidism
after x irradiation to the neck (Adler et al.), 180

Ileostomy
without external appliance, Kock operation for (Handelsman and Fishbein), 161
Indocyanine green

Insulin release
by human pancreatic beta cell tumor culture, effect of glucose and somatostatin (Fujimoto and Teague), 1

Intestinal secretion
enterotoxin-induced, inhibited by polymyxin (Maimon et al.), 82

Johns Hopkins medical vignettes
Harvey Williams Cushing—the Baltimore Period, 1896–1912 (Harvey, A. McG.), 96
Story of Chemotherapy at Johns Hopkins: Perrin H. Long, Eleanor A. Bliss, and E. Kinnerly Marshall, Jr. (Harvey, A. McG.), 54

Klinefelter syndrome
and breast cancer, clinical conference, 102
Kock internal reservoir operation
for permanent ileostomy without external appliance (Handelsman and Fishbein), 161
Kouwenhoven, William Bennet (1886-1975), 109

Leukocytes
allogeneic antibodies against, induced by multiple transfusions (Bilezikian et al.), 73
antibodies to, detected during phagocytosis (Laleli et al.), 43
Lewis, Thomas
historical note (Pruitt, R. D.), 279
Long, Perrin H.
vignette (Harvey, A. McG.), 54
Lung
focal hyperinflation, with bronchial atresia or stenosis (Sang Oh et al.), 48
Lupus
procainamide-induced, clinical conference, 289
Lymphocytes
and glucose oxidation, effects of mitogens (Tsan et al.), 113

Marshall, E. Kennerly Jr.
vignette (Harvey, A. McG.), 54
Medical students
prospective study (Thomas, C. B.), 185
Mental retardation
with progressive quadriparesis and retinitis pigmentosa, in sibs (Gordon et al.) 142
Metabolism
of free fatty acid in resting forearm (Tancredi et al.), 167
Mitogens
effects on glucose oxidation by lymphocytes (Tsan et al.), 113
Multiple sclerosis
clinical conference, 229
Phagocytosis
detection of antileukocyte antibodies during (Laleli et al.), 43
Poliomyelitis
and sources of useful knowledge (Bodian, D.), 130
Polymyxin
as inhibitor of enterotoxin-induced intestinal secretion (Maimon et al.), 82
Population genetics
and molecular evolution (Kimura, M.), 253
Procainamide
inducing lupus, clinical conference, 289
Propantheline
intramuscular, in short bowel syndrome (Cameron et al.), 91
Protein
evolution, in related species (Ayala, F. J.), 262
intake in drinking alcoholics, and pancreatic function changes (Mezey and Potter), 7
Pancreatic function
in drinking alcoholics, and altered dietary protein intake (Mezey and Potter), 7

Quadriparesis
progressive, with mental retardation and retinitis pigmentosa (Gordon et al.), 142

Retinitis pigmentosa
with progressive quadriparesis and mental retardation, in sibs (Gordon et al.), 142

Secretion
intestinal, inhibition by polymyxin (Maimon et al.), 82
Short bowel syndrome
use of intramuscular propantheline (Cameron et al.), 91
Somatostatin
in human pancreatic beta cell tumor culture, effect on insulin release (Fujimoto and Teague), 1
Stenosis
bronchial, with mucocele and focal pulmonary hyperinflation (Sang Oh et al.), 48

Tetany
with secondary hemochromatosis, clinical conference, 61
Traction
transphyseal, as bone lengthening method (Fishbane and Riley), 79

Whipple's disease
endoscopic appearance (Volpicelli et al.), 19
Williams, John Whitridge
vignette (Harvey, A. McG.), 96
Wilson, F. N.
historical note (Pruitt, R. D.), 27
Women
and dysuria (Dans and Klaus), 13

X ray
to the neck, and hypothyroidism (Adler et al.), 180
